Very Fabulous Properties

www.veryfabulous.com

Marilyn Jenett first came into our lives when she booked our Island, Little Eden Cay, for her corporate client Campbell Soup, as the Grand Prize for their nationwide promotion. I didn't know at the time that she would remain in our lives as the teacher and mentor whose influence would open the door to so many wonderful manifestations.

There have been many times where I have clearly seen the effects of Marilyn's prosperity teachings upon my life, and in particular I have noticed a pattern of cause and effect and an amazing synchronicity in the events following my receiving her sagely advice.

One such instance was just prior to Christmas, 2005. Our circumstances at the time were not quite as abundant as usual; in fact, we were "down to our last dime" as is sometimes said by those who should know better than to say such things. ☺

We decided to accept Marilyn's offer of mentoring and to apply her lessons, and in spite of our lack at the time, we chose to tithe a payment to her from a small increase we had received, and this was sent on December 23rd, though it probably was not received until Christmas.

Our Island property required the "right" buyer in order to fulfil our business and personal goals, and we had not managed to attract that person up to this point in time.

On the 26th of December, “out of the blue” I received an enquiry from a buyer I had never previously heard from, and who made a very serious enquiry to buy our property. In spite of the many months that have passed between then and now, the interest of this buyer has never wavered for a moment, and the only issue that had delayed the purchase/sale was the fact that his funding was delayed in arriving from its source.

Now the picture is completed and the Island is under contract at a price of Three Million Dollars, [which incidentally is exactly the sum we declared we would accept for the Island some months before] and due to close in March 2007. I know that this was a clear offering from the Universe to fill the gap that had occurred when another buyer had pulled out of this same purchase, which was the reason that I had been prompted to contact Marilyn for advice, and to extend the payment to begin our association.

I would like to note that Little Eden Cay is far from your typical sale property. A two-hour boat ride from the mainland, it began as an undeveloped and barely habitable (but cheap) deserted island off the coast of Nicaragua. With heart and soul and a quantum leap of vision, we transformed it into the unique and exquisite “slice of heaven” for our family that would eventually pass to a most unusual buyer and send us on to our next adventure in France.

In our mentoring association, I have often noticed an influx of prosperity following a call to Marilyn, and the inspired conversation that takes place every time. The Universe gets “stirred up” in the most positive sense, and there is no holding back the flow of abundance that flows forth. Shortly after one mentoring session, American Express booked Little Eden Cay, out of all the world’s islands, for their huge card member promotion. Following another call, the largest television network in New Zealand filmed our family at the Island which has made a national impression and has resulted in amazing footage that is now on our website.

Thank you, Marilyn, for teaching me the tremendous power of Focus and Intention; two sure keys to closing a sale...
